**How much does VA pay?**

1. VA determines the Maximum Annual Pension Rate (MAPR) for your situation. This amount is set by Congress.

2. Next, VA determines your countable income. This is done by subtracting exclusions provided by law from your total annual income.

3. VA then subtracts your countable income from the MAPR. This difference is your yearly pension entitlement.

4. VA divides this amount by 12 and rounds to the nearest dollar. This is the approximate amount of your monthly pension payment.

   VA deducts certain expenses you pay, such as unreimbursed medical expenses, from your annual household income. This will decrease your countable income and increase your monthly pension payment. Find a complete list of eligible expenses in the Code of Federal Regulations, located at eCFR :: 38 CFR 3.278 -- Deductible medical expenses.
